A webinar was organized at Mayurakshi Gramin College, Ranishwar on 26-08-2022. It was presided over by the Principal of this college, Professor Abdul Rayees Khan. Welcoming all the guests, he further said that in today's era, women are no less than anyone. They are making important contributions in every field, standing shoulder to shoulder with men. Therefore, any kind of gender diversity cannot be accepted in the society. Prof. Dr. Bhupal Bhattacharya of the Law Department of Raiganj University spoke about the equality of men and women before the law. He reviewed in detail the recent decision given by the Supreme Court in this direction. He told that after the decision of the Supreme Court, women will have equal rights as men on ancestral property. Dr. Sweta Rai and Dr. Vinod Kumar Sharma talked about equality of rights of men and women. Dr. Mayurika Rai said that earlier in the society, happiness was celebrated on the birth of a son and sadness was expressed on the birth of a daughter. But this feeling is decreasing now. Professor of Zoology Department, Majeed Nadeem Ahsan gave the vote of thanks in the programme. The programme was conducted by NSS-3 and nodal officer Dr. Rupam Kumari. On this occasion, a large number of teachers and students joined the webinar.

On the occasion of the birth anniversary of Gurudev Rabindranath Tagore, a seminar was organized at Mayurakshi Gramin College, Ranishwar. On this occasion, Chief Guest Dr. Debashis Mukherjee told that in present times the relevance of Gurudev Rabindra Nath Thakur's thoughts and philosophy has increased a lot. About 100 years ago, the radical ideas against which he had cautioned the world through his writings, are again visible today. We all know that Gurudev Rabindra Nath Thakur considered extreme nationalism to be very dangerous for humanity. Today, militant nationalism has come to the fore again in our midst. Apart from this, he also supported humanistic ideas against imperialism. Special Guest Mr. Arindam Sen told that today our country is moving towards the path where there is longing and violence. By walking on such a path, we can only harm our nation. Therefore, it is necessary that the thoughts of Gurudev Rabindra Nath Thakur should be adopted.

Throwing light on the biography of Gurudev Rabindranath Tagore, Principal Professor Abdul Rayees Khan advised the students to adopt his thoughts and implement them in life. He said that all the thoughts of Rabindra Nath are relevant even today. A civilized and humane society can be established only by bringing it into life.

IQAC Coordinator Professor Abid Raza while discussing the relevance of philosophy and thoughts of Gurudev Rabindranath Tagore said that he was a great humanist. Prof. Abid Raza added that he used to say that respect and love towards human beings should be the first duty of man. He supported liberty, equality and fraternity. He was an opponent of extreme nationalism and a supporter of international harmony. At the same time, he was a big supporter of nature and environment. His idea is necessary for the protection of the environment. At the same time, he emphasized on practical education.

Throwing light on the biography of Ravindra Nath Thakur, Prof. Uday Prasad Singh said that he taught the lesson of walking on self-restraint. Ashish Mandal, Professor, Department of Bangla, highlighting the biography of Guru Rabindranath Tagore and his poems clarified the hidden messages towards human beings. Many students also participated in this seminar.

Overall, the seminar was very successful, under which the listeners were inspired to live a high and ideal life by clarifying the thoughts of Gurudev Rabindra Nath Thakur.

Today, on 12-6-2023, at 4 pm, a webinar was organized by Mayurakshi Gramin College, Ranishwar, whose topic was - Entrepreneurship. It was presided over by Principal Abdul Rayees Khan. He explained that an entrepreneur is a person who creates and/or invests in one or more businesses, bears most of the risks and enjoys most of the profits. Organising Secretary cum IQAC Co-ordinator Prof. Abid Raza pointed out that the process of setting up a business is known as "entrepreneurship". The entrepreneur is usually seen as an innovator, a source of new ideas, goods, services and/or business processes.

Chief Innovation Officer Mr. Anurup expressed his views in this regard in detail. He explained it in the following manner while discussing various aspects of entrepreneurship. He describes entrepreneurship as the process of designing, launching, and running a new business, often similar to a small business, or "the ability to develop, organize, and manage a business enterprise with no risk." ability and willingness to manage" to make a profit. The people who create these businesses are often called "entrepreneurs". While the definition of entrepreneurship generally focuses on launching and running businesses, due to the high risks involved in launching a start-up, a significant proportion of start-up businesses are classified as "lack of funding, bad business decisions, government". It has to be closed due to policies, an economic crisis, a decrease in market demand, or a combination of all of these.

In the field of economics, the term entrepreneur is used for an entity that has the ability to translate inventions or technologies into products and services. In this sense, entrepreneurship describes activities on the part of both established firms and new businesses. The webinar was moderated by Prof. Majeed Nadeem. Finally, Dr. Rupam Kumari concluded the webinar by thanking everyone.
